styles

Every none high gloss colour is available in every style. High gloss colours are available in a select range. See individual styles for more information.

All our doors are ideal for any interior situation with styles to suit kitchen, bedroom, bathroom and office applications. They are attractive, durable and hard wearing.

Manufactured using the latest technology they are made from high quality 18mm MDF faced with 0.4mm scratch resistant vinyl and backed with a hard wearing melamine surface, most of which match the vinyl colour.

The entire range has been tested and certified by FIRA as achieving the bond quality requirements of BS6222-3.

Visit www.auniquechoice.co.uk for larger images and for any new styles.

DUO acrylic

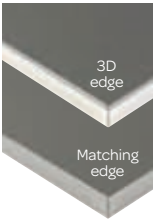

Choosing acrylic takes your duo doors to the next level. Bold colours and superior gloss levels come together to offer a highly sought after look that's guaranteed to make a statement.

Most duo acrylic doors are available in a choice of a 3D or matching edge. The 3D edge creates a very attractive glass panel effect finish while the matching edge gives the appearance of a solid door.
